

What Students See in Course Response

The following pages show examples of what students see when they are asked to complete ratings of each of their courses.

Initial invitation to complete course evaluations

This is an example of the text in the initial email students receive inviting them to complete the course evaluations.

Subject: Invitation to Complete Your Course Evaluations

Your feedback is important to Kennesaw State University because it will enhance the value of your degree by helping faculty in the design and delivery of courses.

Your feedback will be collected via an online evaluation. The evaluation is available now and will be available until April 30 at 11:59 PM (US/Eastern).

Please note that your responses are completely anonymous. Even though you need to login to the system, no identifying information is ever directly connected to the feedback you submit. Digital Measures, an independent company, is responsible for collecting and reporting the results. Please note that your responses will only be made available to your instructor after the grade submission deadline, on May 11.

We have made it as convenient as possible for you. You only need to click on the web address below and then enter your NetID and password.

To begin, go to:

<https://www.digitalmeasures.com/login/kennesaw/student>

Thank you for taking the time to give your feedback and helping us improve your educational experience.

Sincerely,

The Digital Measures Team

This is how the KSU GENERAL form appears to students. This form includes all of the university-wide items as approved by KSU's Faculty Senate beginning in Spring 2012.

The section number and name of faculty member were redacted.

Students have the option to decline to fill out a review of any course. When faculty generate reports via "View Respondents," the students who decline are included in the tallies for "Total Instruments" and "Responses" but are excluded from the tally for "Instruments filled out".

You can only submit this once.

Please confirm...

1. That your responses are for the course number displayed at the top of the page.
2. That you filled in your responses properly. For example, if there are questions that use "scales" (such as one to five) for their answers, confirm that you filled in the scale properly.

KSU faculty value student feedback about the course, their teaching, and course materials, which can be used to improve teaching and learning. Please take as long as you need to answer the questions listed below.

Digital Measures Protects Your Privacy

Although moving processes in higher education to a digital format offers many advantages, it also opens the door to challenges such as privacy and security. Digital Measures completely acknowledges this and understands that these challenges must be met with no exceptions.

With Digital Measures, you can be assured that the following conditions will be met:

- Information exchanged between your computer and our servers are always transferred over an encrypted connection to prevent unauthorized exposure.
- Digital Measures' servers are in a datacenter that has these features:
 - Locked, caged server room protected by armed security guards who are present at all times
 - Servers are firewalled and located behind an intrusion detection system
 - Redundant fire suppression and climate control systems
 - Redundant power and Internet connections
- Secure nightly backups to five geographically-dispersed locations
- Digital Measures is compliant with the Family Educational Rights and Privacy Act (FERPA) and Section 508 of the Rehabilitation Act
- Digital Measures is registered and has certified with the United States Department of Commerce as compliant with the Safe Harbor Principles in effect between the European Union and the US
- Your personal information will never be released, sold or shared by Digital Measures with parties other than your academic institution and parties that we use to provide the technical services that we do. When we must share data with these parties, we establish legally-binding confidentiality agreements and non-disclosure agreements to protect the shared data.

Many steps have been taken to protect your data and personal identity in every component of our solutions. We hope you enjoy your experience with our system!
